

REMARKS

In response to the Restriction Requirement of November 17, 2004, Applicants have elected Invention I, corresponding to Claims 1-40 and 70-78. Applicants have canceled Claims 41-69 corresponding to Invention II. This cancellation is being done without prejudice to the filing of any divisional application for these and/or other claims. This election is without traverse because Applicants agree that a determination of the unpatentability of Invention I would not necessarily imply the unpatentability of Invention II.

In response to the Notice of Non-Compliant Amendment, Applicants have included a complete listing of all the claims. In addition, Applicants have corrected typographic errors in the specification.

In view of the above, Applicants respectfully request favorable examination and allowance of Claims 1-40 and 70-78.

Respectfully submitted,
